

Household Hazardous Waste Information

Peabody's annual household hazardous waste day is held yearly each June. Residents who need to dispose of HHW at other times may contact the Peabody Health Dept. at 978-536-5926 to find out about collections in other communities. Also, there are two facilities (in Lexington and Lowell) that accept HHW year-round. Call the Health Dept for directions and fee schedules.

Please remember that the Recycling Center at the Peabody Department of Public Services (50 Farm Avenue) accepts propane tanks, waste oil, and car batteries year-round. Also, residents may dispose of electronics such as TVs and computers by purchasing a sticker and putting items out for trash pick-up. Please contact 978-536-0600 for more information.
