OFFICE OF THE MAYOR EDWARD A. BETTENCOURT, JR.

Mayor Schedules Additional Yard Waste Pickup

Due to a large number of resident requests, Mayor Edward A. Bettencourt, Jr. has announced an additional curbside yard waste collection during the week of December 1st.

During the week of December 1st, on their normal trash pickup day, residents may leave their yard waste curbside in paper bags or barrels. No yard waste in plastic bags will be accepted. All yard waste should be picked up no later than 3 p.m. Residents should note that haulers may pick up regular trash first and return later in the day for yard waste. There is no charge for curbside yard waste collection.

“My office has received many calls from residents who need an additional opportunity to dispose of fallen tree leaves and other yard waste,” said Mayor Bettencourt. “The additional curbside collection should help account for any late falling tree leaves which are a product of the very mild early fall we have had this year.”

Residents should also note they can take yard waste to the Department of Public Services, 50 Farm Avenue any weekday during regular business hours. The Department of Public Services is open Monday through Friday from 7:00 a.m. to 4:00 p.m.
